## **ECGTN Workshop**

by

**Professor Annette Poulsen**

*Editor of the Journal of Corporate Governance*

A workshop was organised during the afternoon of 21 June 2007 at the University of Sheffield. The workshop was aimed at early career researchers and advanced PhD students from the European Corporate Governance Training Network (ECGTN) and other UK and overseas universities. The event was attended by a dozen participants. The participants were advanced PhD students and junior lecturers from Aston University, the University of Bonn, the Lebanese American University, Manchester Business School, the University of Sheffield, the Tinbergen Institute, and the University of Hertfordshire.

Professor Annette Poulsen, the editor of the Journal of Corporate Finance, led the workshop. Professor Poulsen provided tips on how to develop a publication strategy and, in particular, on how to improve one's chances to get published in top finance journals. She also gave guidelines on how to address referees' reports and she also discussed the possible pitfalls that one should avoid. Professor Poulsen's presentation generated a lively discussion and participants later on commented favourably on the usefulness of the event.
